

Recovery Coaches in the Emergency Department Learning Objectives 2021

RCED training participants will be able to:

- Understand the paramount role of supervision in recovery coaching in the emergency department.
 - Know the boundaries of recovery coaching and how they apply to the emergency department.
 - Define the lane of a recovery coach in the emergency department:
motivational
interviewing, support, advocacy, and resource provision
 - Relate the power of peers in this work to break down barriers of stigma.
 - Demonstrate ability to be an advocate within the emergency department setting.
 - Improve their motivational interviewing skills with an in-depth training in motivational interviewing in the emergency department.
 - Demonstrate the understanding of potential difficult situations and when to reach out for help
and assistance within the hospital and to their own supervisor.
 - Understand the procedures and protocols of recovery coaching in the emergency department.
 - Understanding the roles and relationships between key staff in the Emergency Department: nurses, doctors, case-managers, police, etc.
 - Demonstrate understanding of the follow-up phone-call protocols after Emergency Department discharge through case studies and role play.
 - Demonstrate understanding of environment and stakes within the Emergency Department.
 - Developing awareness of working with marginalized with populations and how recovery coach can help navigate and support the care they received in order to improve outcomes.
 - Demonstrate an understanding of trauma informed practices.
 - Understand and demonstrate how to work with families.
- Demonstrate understanding of HIPAA & 42 CFR Part 2 and how it applies to RCED
